

# HOME emergency supply kit

**Everyone in the Turks and Caicos Islands should put together an emergency supply kit. The kit should be suitable for use at home and if necessary for wherever you must evacuate.**

*Use the checklists to make sure you have the right supplies in your emergency kit*

## **Does your HOME emergency supply kit contain...**

*if yes, tick the box*

First aid kit and essential medications including aspirins, antidiarrhoea medicine, insect repellent, plasters, bandages, antibacterial ointment and antiseptic

***If anyone in your family*** is taking prescription medication - a two week supply of the prescription medications

Canned food and can opener

Enough canned food to last a week such as sardines, corned beef, spam, peanut butter, dried / condensed milk, sugar biscuits, chocolate and pet food

At least two flashlights

Scissors

Six extra sets of batteries

A cooler

Matches and a lighter

A stove or grill and lighter fluid
